SUBJECT : Correspondence from [REDACTED]
[REDACTED]

25X1A

1. Enclosed herewith are the correspondence and exhibits which you forwarded with your memorandum of 17 September on the above subject. It is our recommendation that no reply should be sent at this time to [REDACTED] for the following reasons:

25X1A

b. If the letter and enclosures are genuine, they have probably been intercepted and noted by the [REDACTED] censorship authorities. If this is the case, the security implications would be as serious as in the preceding supposition.

25X1A

c. If this correspondence has not been intercepted it would still involve security problems from the standpoint of use by this agency.

d. [REDACTED] may be trying to ride on the coat tails of another [REDACTED] who has produced an anti-Communist movie based on similar drawings reproduced from his personal experience.

2. This matter has been referred to the field, and a reply is expected within six weeks. You will be notified at that time of our findings and further recommendations.
